*Yields must differ by more than the LSD value to be considered statistically different.

Top LSD group in bold.

Planted: 10/22/22

Color/Bold available from Polansky Seed.

South Central Experiment Field: 37.932024, -98.028972

Dryland; conventional tillage

Precipitation 10/1-6/26: normal 20.08"

obs 14.9"

diff -5.18"

Call it the "Comeback Kid"! Not what was expected from the condition in March.

Approximately 2/3 of rainfall of the entire growing season came in the last 3 months.
