

363 BMR BY FORAGE SORGHUM

Strengths:

- Tillering
- Stacked internodes
- Digestibility and Palatability

Suggested Uses:

- Double Crop after Wheat
- Late-Season Graze Out
- Double Crop Silage

363 is a early maturing hybrid that is a great option for a double crop silage. It has great tillering capabilities, allowing for increased yields and ground cover. With the brown-mid rib trait it also has excellent digestibility and palatability.
