

079 PPS BMR SUDANGRASS

Strengths

- Wide window of harvestability
- High yielding single or multi-cut
- High leaf to stem ratio
- Leafy fine stems

Suggested Uses:

- Multi-Cut hay production
- Grazing (Continuous/ Rotational)
- Cover Crop

079 photoperiod sensitive brown mid rib sudangrass can be placed in any geography and is a great option for growers that prioritize regrowth. This leafy product has a great disease package and is a great product for growers wanting to maintain fine stems. This product prefers lower planting rates.
