

# MT Cowgirl Spring Barley

## Strengths

- Forage Production
- Highest percentage of plump seed
- Lower NDF and ADF
- Tall Plant Height

## Suggested Uses

- Forage or hay production
- Grain production
- Cover Crop

This new barley variety is a cross between Lavina and CDC Cowboy. MT Cowgirl is awnless and is superior in forage tonnage. It also provides a longer grain-fill period giving harvest flexibility. MT Cowgirl is a taller plant creating higher hay yields.

## Plant Characteristics

Days to Maturity	80- 100
Min./Max. Soil pH	5.5-7.0
Palatability	Excellent
Avg seed count / lb	13,000
Seeding Rate	60-90#
Fertilize	75-125lbs N/Ac

- Averaged 109% against Hays Spring barley in forage yield trials
- Highest percentage of plump seed
